Experienced Product Manager, specializing in 0 to 1 product journeys. Proven track record in product development from concept to launch, delivering business impact across fast-paced high-growth environments.

Professional Experience

Product Manager (Reporting and Analytics) – Chalo Mobility

Jan 2025 – Present | Mobility SaaS

- Owned product vision, strategy, roadmap & execution for **Chalo Insights — enterprise Reporting & Analytics platform serving 20+ enterprise customers, 550+ MAU** across government transport units
- Conducted 50+ customer discovery interviews** across executives, analysts, operations, finance, and leadership personas to shape reporting strategy and roadmap priorities.
- Built configurable reporting ecosystem from scratch: **1,500+ dashboards, 2,500+ reports**, scheduling, branded CSV/PDF exports, embedded analytics, drill-downs, RBAC, internal embedding APIs
- Led cross-functional team (**3 engineers, 1 designer, 1 data engineer**) — owned PRDs, prioritization, sprint planning, backlog, quarterly prioritization & high-fidelity prototypes (Lovable, Base44, Bolt)
- Cut report turnaround 86% (1 week → 1 day)** via Analytics-on-the-Fly, **supporting 10M+ daily ticketing transactions**
- Partnered with data engineering to build silver layer across Snowflake, Postgres & Hevo - to **reduce report load time from 4 min to under 30 sec at enterprise scale**
- Cut dashboard creation TAT by 92% (1 day → 2 hrs)** with AI Report Generation & AI Dashboard Assistant
- Designed embedded reporting flows** with secure cross-platform data sharing with **fine-grained RBAC/permissions** for governed enterprise access
- Resolved reporting accuracy challenges including double counting & late-arriving data due to multi-system sync lags
- Managed deep financial reconciliation across **millions of UPI transactions amounting to ~INR 660Cr**
- Tracked adoption, performance, TAT & migration parity; benchmarked platform against legacy Sisense
- Scaled the platform to support **~1,500 reporting queries daily** while improving scalability, usability & reliability

Product Manager – RateGain

Aug 2024 – Jan 2025 | Travel & Hospitality SaaS

- Productized the migration of 10,000+ users (~\$2M ACV)** from legacy to modern platform, **reducing churn by 18%** using scalable automation **cutting manual efforts by 60%**
- Increased adoption for new platform from 10% to 50%** in collaboration with PMM on GTM teams

Product Manager – BambooBox

Oct 2021 – Jul 2024 | MarTech SaaS

- Boosted opportunity prediction accuracy by 10% and improved SDR win rates by 11%** in partnership with Data Science team for optimizing lead scoring and account scoring models
- Increased product usage by 30%** by delivering **deep CRM and marketing automation integrations** (Salesforce, HubSpot, Zoho, LinkedIn, Mailchimp) for enterprise use cases
- Optimized user workflows to save 10+ hrs/week** by building and launching bidirectional data sync automation modules, thereby **raising NPS by 10 points**
- Cut platform bugs by 40% within 60 days** through RCA and QA streamlining across an **8-member team**.

Product Consultant / Product Owner – HestaBit

Sep 2020 – Oct 2021 | Global Tech Consultancy
